Education

Vasireddy Venkatadri Institute Of Technology

Oct 2022 – May 2026

- Bachelor of Science in Computer Science and Engineering | GPA: 8.34/10

Chaitanya Jr College

June 2020 – April 2022

- Physics, Chemistry, Mathematics | Percentage: 92%

Experience

Full-Stack Developer Intern, AscendSkills

Feb 2025 – May 2025

- Developed full stack web applications with course management and job portal modules and assessments
- Developed secure RESTful APIs with full CRUD operations, implementing unit and integration testing
- Part of an agile software engineering group, git for version control, code reviews and design best practices applied

Projects

IntelliPDF | React, FastApi, Docker, LLM

Github

- Created a scalable full-stack application using React/Python making use of Adobe PDF Embed API and Docker for real time PDF rendering and modular deployment
- Merged Gemini's LLM and TTS engines to deliver context-specific recommendations and narrated summaries, elevating AI-driven insights through user interaction
- Developed highly reliable and maintainable software through extensive unit and integration testing with 90%+ coverage

Air Quality Prediction | HTML, Css, JavaScript, Flask, ML

Github

- Developed a machine learning model with Python (Pandas, Matplotlib and Plotly) for the prediction of air quality based on PM2.5, PM10, NO₂, and SO₂, markers
- Attained 85%+ prediction success in models and employed optimization methods to generate trustworthy results
- Improved dashboard and code performance – a 30% decrease in load time along with tun-time interactivities in visualizations

Alumni Engagement | React.js, Node.js, Express.js, MongoDB

Github

- Architected a full-stack platform to be highly scalable involving components such as job listing, events and mentorship modules, aimed at providing professional social networking experience
- Developed knowledge sharing functionality for various career categories using MongoDB and REST APIs to facilitate communication of wisdom between the users across the different careers (5+)
- Designed safe authentication and authorization for +100 different users - maintaining confidentiality, GRANT permissions, integrity in the system

Technologies

Languages: C, Java, Python, SQL, JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

Systems & Tools: Git, GitHub, Postman,

Database: PostgreSQL, MongoDB

CS Subjects: Object-Oriented Programming, Data Structures Algorithms, Operating Systems, Computer Networks

Soft Skills: Collaboration, Communication, Leadership, Problem-Solving

Achievements

- **Finalist, Adobe India Hackathon 2025:** Navigated through 2 national rounds by creating scalable and user-centric solutions
- **Winner Of 1st Prize, VVIT Hackathon:** Developed quick prototypes under constrained problem statements.
